Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claim 46 is objected to, because the recitation with respect to "the finder" lacks sufficient antecedent basis.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 7, 34, 46, 52, 53 and 54 are rejected under 35 U.S.C. 102(e) as being anticipated by Koops (US 6,064,506).

Regarding claims 7, 34, 53 and 54, Koops discloses a variable hologram element (see Fig. 2), comprising, a liquid crystal impregnated into interstitial voids in a dispersed photonic structure having a two-dimensional or three-dimensional lattice structure (line 57 of Col. 3 to line 25 of Col. 4).

Art Unit: 2872

Regarding claims 53 and 54, it is noted that the liquid crystal is a variable refractive-index substance.

Regarding claim 46, Koops discloses the optical axis of the variable hologram being at 0 degree with respect to the normal (left holograms in Fig. 2), which satisfies the second condition.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 47-51 are rejected under 35 U.S.C. 103(a) as being unpatentable over Koops.

Regarding claims 47-51, Koops discloses the variable hologram being used in an optical switch. Koop does not disclose the combination of the variable hologram in the optical devices variously recited (display, finder, optical pick-up, variable-focus glasses or a measuring device). However, utilizing such a variable hologram, for a multiplicity of

Art Unit: 2872

purposes, in said devices is conventional and well known in the art.

It would have been obvious, at the time the invention was made, to a person having ordinary skill in the art to employ variable hologram(s) in such devices so as to reduce the weight of the optical devices, and the manufacturing costs.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will

Art Unit: 2872

expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
